

Setup Instructions 9608 Series Drum Thrones

- A) Open the tripod base then sit it upright.
- B) Place the seat top onto the threaded post.
- C) Evenly tighten the seat bracket clamp around the threaded post.
- D) Rotate the seat top to turn the threaded shaft and adjust to your desired height.
- E) Slide the memory lock on the threaded shaft down towards the base collar and into the slot on the collar.
- F) Tighten the memory lock to secure height positioning.
- G) Tighten the *base collar clamp* wing nut and hex nut evenly.
- H) As an option, slightly loosen the seat bracket to allow for some seat rotation while playing.

Backrest Assembly Instructions

- A) To attach the back support arm onto the seat bracket first remove the GP-0117 from the arm.
- B) Slide the arm into the cushion seat plate, opening with the small curved plate resting on top of the slotted support arm area.
- C) Position this curved plate onto the support arm so that the threaded hole can align with the threaded plastic knob and tighten to secure the seat plate and support arm.
- D) Adjust the desired depth and tighten knob.
- E) To attach the backrest cushion onto the back support arm place the "C" shaped collar over the slotted area of the support arm and align it to thread into the backrest cushion.
- F) Adjust cushion height and tighten knob.
